Subject No. 3.
Publication of the monthly volumes of Govt. Progs. in the Kanarese portion of the Gazette.

Summary of discussion.—The monthly volumes of the Government Proceedings should be printed in the Kanarese portion of the *Mysore Gazette* for the information of the general public.

Reply of Government.—The monthly volume of Government orders is not intended for publication. Such orders as require publication are being duly published.

Subject No. 4.
General Municipal Regulation.

Summary of discussion.—The want is much felt of a Municipal Regulation applicable to all Municipal towns in the State and the same should be supplied as early as possible.

Reply of Government.—An elaborate Regulation is not required, except perhaps for two or three of the larger Municipalities. A short Regulation containing a few simple sections is all that the other Municipal towns require. This matter will receive due attention in the Legislative Department.

Subject No. 5.
Compulsory vaccination.

Summary of discussion.—The mortality from small-pox is large and compulsory vaccination is a want.

Reply of Government.—Compulsion by law in this matter is a measure of doubtful expediency, but the Government is doing its best to extend vaccination in every possible way. An important unpopular feature is removed by the system now adopted for supply of lymph taken directly from calves.

Subject No. 6.
Gambling.

Summary of discussion.—A Regulation to prevent gambling is required, as gambling is on the increase everywhere.

Reply of Government.—The subject is under consideration.

Subject No. 7.
Proposed introduction of certain new enactments.

Summary of discussion.—The following Legislative enactments may be introduced into the Province—

(*a*) Transfer of Property Act.
Administrator General's Act.
Easements Acts.
Trusts Act.
(*b*) Factory Legislation and Apprentice Laws.

Reply of Government.—The want of these complicated British enactments has not yet been felt in Mysore and it is undesirable to add to the existing laws in the State in anticipation of possible future requirements. Moreover, we should avoid introducing laws which the people neither need, nor can readily study and understand.

Subject No. 8.
Introduction of the Village Munsiff's Bill and Panchayat Courts

Summary of discussion.—Village Munsiffs should be appointed and Panchayat Courts established in the Province.

Reply of Government.—The subject was very fully discussed in previous years and the decision then arrived at was against the expediency of establishing Village Munsiffs' Courts with the present staff of village officers. No grounds exist for now reconsidering that decision.
